ROCKSTEAD

ROCKSTEAD 最高級のナイフです。刃形は本造りで、日本刀を彷彿させる強靱で鋭い切れ味のナイフです。この柄巻きは日本刀を作る伝統工芸士の手による本格的な造りです。ZDP189 のクラッド鋼は非常に手に入りにくい鋼材です。微かに見える三層のレイヤーの線は日本刀の刃紋を思わせる逸品です。我々の技術の粋を結集したナイフです。

This is one of ROCKSTEAD' s finest knives. This blade shape is Honzukuri—durable, sharp and reminiscent of the traditional Japanese sword. This haft making is a real work of art by the hand of a traditional Japanese sword craftsman. The ZDP189 clad steel not found in usual knives. The faint line visible between the three layers reminds you of the Hamon of the Japanese sword. It is a knife that incorporates our highest technology.

BLADE / HONZUKURI

Full length : 250mm Blade : 130mm
Material : ZDP189 clad by ATS34 Thickness : 5.8mm
Weight : 302g Hardness : around HRc67
