ROCKSTEAD

BLADE / SHINO GIZUKURI

Full length : 176mm Blade : 73mm
 Material : ZDP189 Thickness : 3.2mm
 Weight : 71g Hardness : around HRC67
 Scale : A2024(duralumin) Hard-anodized treatment
 Spring top chip: SKD11 HRC 61

It is a small size of Higo knife. And the function is quite the same as Higo. This easy maintenance knife is an easy-to-use knife that cuts well. The handle of the duralumin is light and is strong.

The bottom of this blade edge is 30 degrees, and it's continuously change to top of the blade. The top edge's angle is 24 degrees. The change in this angle is a result of ROCKSTEAD that pursues sharpness. This is a knife of preeminent sharpness. You can enjoy its strong cutting capabilities for a long time.
